

Caro Safety Cups

It is now compulsory for all show jumping show holding bodies to use FEI approved safety cups on all oxers at shows. GHS has sourced these cups from Europe on behalf of our affiliated bodies. We are now receiving requests from private yards for cups. As they are costly, GHS is unfortunately unable to keep stocks, and any future orders must be on condition that payment is made up front.

GHS is prepared to order cups on a quarterly basis on behalf our members and show holding bodies, and therefore give you the opportunity now to order Caro Safety and Regular cups through GHS for the first quarterly order this year.

To benefit from this offer, PLEASE COMPLETE THE ATTACHED ORDER FORM AND FAX IT, TOGETHER WITH YOUR PROOF OF PAYMENT, TO N-J FREEMAN ON 0865 944 348 BY NO LATER THAN MONDAY 15 MARCH 2010.

The cost of the safety cups is dependent on currency fluctuations and transport costs, but is estimated as follows:

Caro Safety Cups – R220

Caro Regular Plastic Cups – R70

Payment, based on the above estimates, must be made with your order. Any adjustments to the costs will be made once finalized.
