

# SUBSTITUTION OF HORSES FOR SHOWJUMPING

The substitution rule in our general regulations states:

## 01.15.2 SUBSTITUTION OF HORSE AND/OR RIDER

A competitor, or person authorised by him, may substitute any horse and/or rider in a competition provided that they ~~are~~ eligible in terms of the rules for entry in the competition concerned as at the closing date of entries for such competition. This substitution shall be done in writing by the competitor on the prescribed SANEF form and handed in before the competition concerned, in accordance with the time limit laid down in 01.15.1.1 and 01.15.1.2 hereof.

Due to the fact that the substitution rule uses the wording “eligible in terms of the rules for entry in the competition concerned as at the closing date of entries” The following should be applied:

1. Any horse that is graded 1.30m may at any time be substituted into any other class lower than 1.30m, and may compete competitively as long as the entry is bought, and as long as the entry does not change the number of starters.
2. Any horse that is graded 1.20m and lower may at any time be substituted into any other grade except 1.30m and above, and may compete competitively as long as the entry is bought, and as long as the entry does not change the number of starters.
3. Bought entries must be submitted on a correctly completed official substitution form.
